

United Metal Products Material Certification

United Metal Products material meets or exceeds the following standards

AISI North American Specification for Cold-Formed Steel Structural Members

Structural Framing Specification:

ASTM C 955 – Load bearing steel framing

ASTM C 1007 – Installation

ASTM A 1003/ A 653 – Material specification for steel sheet requirement

Drywall Non-load-Bearing Framing Specification:

ASTM C645 – Non Structural steel framing members

ASTM C 754 – Installation

Steel and Coating Specification for all Product Specification

ASTM A 924

ASTM A 653

ASTM A 1003

Additional Code Approvals

SSMA Member – meet or exceed all requirements

CODE COMPLIANCE CERTIFICATION PROGRAM

ICC-ES ER 4943P

LARR 24923

LEED® Credits for Cold-Formed Steel Framing Projects

Credit MR 2.1/2.2- Construction Waste Management (Up to 2 Points)

Credit MR 4.1/4.2- Recycled Content Credit Intent (2 Points)

Credit MR 5.1/5.2- Regional Materials (2 Points)
